You're right, I'm lucky.

I'm lucky because I have the nicest job in the world.

I am a graphic designer. For 23 years, I've designed. Brochures, leaflets and annual reports. Logos. Packaging. Illustrations. On all kinds of medium or on screen. Sometimes in all sorts of surprising languages.

I'm lucky because it's not work: it's a **pleasure**. A difficult but privileged pleasure of creating, of course, but above all the satisfaction to note that the message is well passed on and that the client appreciates the quality and beauty of one's work. For the messenger that I am, it's very gratifying.

You know that, **pleasure is a serious affair**. It requires work and experience. And above all, a message to transmit or a reason to share.

That message, that reason, could very well be **your message**, **your company** or **your reason**. Your ideas deserve that one takes care of them.

I invite you to **cross-skills**. I offer you **all the achievements of my career** and you bring to me **your universe**. Let's bring together our talents!

Skills and sectors of activity

Skills and life skills:

- **Experienced** and technically competent
- **Respectful of client demands** and their objectives is for me absolutely imperative
- I **accompany** and **guide** the client in his thought
- I can **synthesize** or **develop an idea** and establish the resulting specifications
- **Upstream**, I ensure direct client contact but also to seek out external suppliers, the writing for tenders and the coordination with collaborators
- **Downstream**, I ensure production follow-up
- I regard the **details** with great importance
- I am at ease with a **cross-media approach** and conscience of the **portability of print** to an online environment
- Lively interest in relevant use of **social networks**
- I am very interested in **innovative technologies** and those which can concretely bring (adaptive design, adps, webapps, impression 3D, CNC)...
- I am capable to reply to the unforeseen in complete **autonomy** and to work within **short deadlines** when the situation is justified.
- **Creative, enthusiastic** and **reliable**
- I **apply myself** in what I do
- I possess a good general culture and **all subjects interest me**. Curiosity for all things is my motivating force.
- I **share** my knowledge
- I have the **ability to listen** and of **relationships**
- I enjoy **teamwork**
- **Flexible**, I never grumble to go above and beyond in emergency situations.

Previous sectors of activity:

I have worked in the following sectors: **institutional, pharmaceutical, financial, chemical, military, energy, commercial, transport, industrial** and **environmental**...

From conception through to the production of multilingual brochures, leaflets, pop-ups, annual reports, banners, roll-ups and display panels... , I **have handled all printable mediums**.

No aspect of the industry is unknown, from the design of **complete visual identities**, to the writing and use of brand guidelines and **advanced image retouching**. Not forgetting **3D design** (popups, packaging, 3D printing), conception of exhibition stands, **illustrations, infographics** and the front-end design of websites.

My vision of the profession

At a time where different communication channels addresses to all of our senses, where they interact at an unprecedented scale and where frontiers between offline and online worlds become blurred, a **coherent, comprehensive approach** which **crosses communication relays** is more than ever essential to meet each challenge and conceive **pertinent** and **robust solutions** which reply to each need.

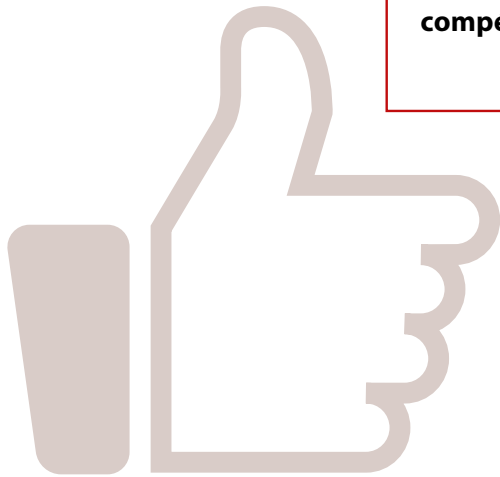

More than ever, the designer is at the crossover of media.

Personal feedback

(...) Formidable Thibault, beau travail et merci beaucoup pour ta rapidité.

C'est vraiment sympa de pouvoir collaborer avec une personne aussi compétente ! (...)

Cristina - AIM MUTUALITES

Dear Thibaut,

On behalf of the Secretariat, I would like to thank you for all the work you have done for EFBW.

Your concepts and designs are very original and beautifully executed. The roll-up banner and water drops are superb and **we are extremely pleased with the final result.**

The work you did contributed to the success of our event (Thank God it's over!)

I sincerely hope we could collaborate again and in a much less complicated way!!!

(...) Really appreciate all your work today on the many projects you've been helping us with (...)

(...) la réalisation du rapport complémentaire "Sustainability Indicators 2011 - Progress report" a été bouclé aujourd'hui.

Nous voudrions à cette occasion souligner Maud, Pierre et moi, **le travail exceptionnel fourni cette fois encore par Thibaut.**

Ce fut (presque) un travail de titan qu'il a **mené de bout en bout avec compétence, créativité, élégance, écoute, attention et un calme et une sérénité (du moins apparente ..) imperturbable.**

Son duo avec Maud fut sans faille: fut-ce Sonny & Cher, Stone et Charden, Bonnie & Clyde, .. que sais-je?

Bravo en tout cas pour cette belle performance dans un travail parfois (souvent?) ingrat mais dont le résultat marque une **nouvelle étape significative dans la communication du Groupe.**

Déjà que le précédent rapport avait été retenu comme l'un des deux finalistes du meilleur rapport belge de développement durable !!!

Cette réalisation valorise le mieux le travail, non seulement de notre petite équipe, mais celui de tous les collaborateurs de deux groupes tout entiers, Solvay et Rhodia, travail journalier souvent **très exigeant** vu les métiers pratiqués dans des activités industrielles qui ne sont pas de tout repos.

Merci mille fois encore et au plaisir de poursuivre la collaboration dans de multiples projets futurs !

Bien cordialement,
*Jacques de Gerlache
